Subject: FW: Status of Interagency Pavillion Work Group

Could you respond to Karl's question below. He also left a voice mail for me but I think that he needs to be contacting you on policy or non tech questions.

Thanks

Subject: Status of Interagency Pavillion Work Group

Good Afternoon Grant, Todd, and Greg,

Reference is made to the Governor's Office announcement that "Wyoming to Lead Further Investigation of Water Quality Concerns Outside of Pavillion with Support of EPA", June 20, 2013.

Does this mean that the previous Pavillion Work Group is terminated?

If not, then what role will it play, if any, in the new approach?

Will it have new direction, leadership and membership?

I would like to know so that I may brief my leadership in a timely way.

Thank You,

Karl

Karl S. Osvald

Senior Geologist and BLM Pavillion Work Group Representative
